

Dear FCC Representative:

I'm concerned that Sinclair Broadcasting is applying unethical, inappropriate and possible illegal tactics to influence the presidential election by having their stations air a documentary that contains anti-Kerry overtones.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. The trend of controlling and manipulating information by large corporations is a growing threat to democracy which the FCC should monitor very carefully. Sinclair's actions are an example of how media power is being abused and demonstrates why the FCC needs to strengthen media ownership rules.

Please scrutinize the Kerry documentary Sinclair intends to air to be sure it complies with regulations and does not constitute a corporate abuse with intentions of election influence and propaganda.

Thank you.
